WELCOME TO SUNDÂRI
SUNDÂRI (pronounced sun-dar-ee) means “Beautiful Woman” in Sanskrit.

SUNDÂRI is a distinctive collection of skincare products created from the purest ingredients and rarest essences distilled from all over the world. Modern science is blended with botanicals—known through ancient wisdom of Ayurveda—for effective results. SUNDÂRI is a pioneer in bringing unique natural ingredients e.g. Neem and Gotu Kola to modern skincare.

Key features of SUNDÂRI formulations:
- All SUNDÂRI products are formulated with organic ingredients where ever possible
- Synthetic fragrances and dyes are not used in the products
- Essential oils used are of therapeutic grade
- Formulations are not tested on animals
- All formulations are dermatologist tested at an independent lab in the US

SUNDÂRI skincare
SUNDÂRI offers a spectrum of skincare products based on unique ingredients that address specific skincare needs to stay younger looking and to prevent the effects of premature aging.

Nurturing Skincare
These are products based on the anti-aging effects of essential oils with a simple three step system. These products have been developed for gentle, daily care exploiting the powerful properties of essential oils and plant extracts.

Firming Skincare
These products are based on Gotu Kola, an age fighting botanical which stimulates fibroblastic activity to firm and lift skin. These products combat wrinkles with high-potency peptides for faster and visible results.

Healing Skincare
These products are based on Neem which contains high levels of organic Sulfur, an essential building block of Collagen. With anti-inflammatory ingredients, these products are best suited for sensitive skin, rosacea or skin that has been treated with peels or microdermabrasion.

Supplifying Skincare
These products incorporate Omega 3+ for intense hydration. This proprietary Omega 3+ complex mimics the skin’s lipid content for maximum hydration. Best suited for dry and mature skin, these products restore suppleness to skin, making it softer and younger looking.

SUNDÂRI recently won the ‘Best Product: Signature Facial Experience’ award at the Spa Asia Crystal Awards ceremony held during the Wellness Summit in Oct 2008
**SUNDĀRI bodycare**
A collection of treatment oriented formulations, with the same high level of essential oils and active ingredients as SUNDĀRI skincare, which elevate a body treatment into a relaxing and result oriented experience.

**Firming Bodycare**
As we age our skin loses elasticity, our firming body collection based on Gotu Kola is formulated to lift and tighten the skin.

**Healing Bodycare**
A complete healing program that balances the mind, body and spirit. Our healing spa program is designed to promote comfort to the skin to counteract the daily effects of stress and environmental factors.

**Supplifying Bodycare**
A collection that of body program that nourishes the skin with essential fatty acids. An elixir of therapeutic oils to deeply nourish and supply the skin with nutrients for healthy, supple, youthful skin.

SUNDĀRI’s Gotu Kola based anti aging facial was rated among the ‘Top 15: Anti Aging Facials’ in the US by Spa magazine.

Product development and manufacturing are based in USA.

**Product Safety and Testing**
Product safety and the safety of our users are paramount for us. All SUNDĀRI formulations go through several tests before they are approved for launch. These tests are conducted by an independent lab in the US. SUNDĀRI does not test any formulation on animals.

- Repeated Insult Patch Test - This test is done to determine by repetitive epidermal contact the primary or cumulative irritation and/or allergic contact sensitization potential of test materials. This test is done on 50 subjects over a period of 12 weeks.
- Antimicrobial Effectiveness Test - This procedure is used to determine the effectiveness of preservatives in cosmetic formulations. There should be at least a 99.9% reduction of vegetative bacteria within 7 days following each challenge and no increase for the duration of the test period.
- EpiOcular \( \text{in vitro} \) Toxicity Test – This test provides a predictive means to assess ocular irritancy for eye products. The product should achieve a “non-irritating/minimally irritating” Irritancy Classification.
**SUSTAINABILITY AND COMMUNITY**

**Sustainability Policy**
With a large number of ingredients used in our products being sourced from nature, we recognize our dependence on and interaction with the natural environment.

SUNDÂRI is committed towards reducing any adverse impact of its products and operations on the environment. The impact on the environment guides choices that the company makes in product and packaging development. The company looks for environment friendly, fair traded, organic options that may be used in the course of its operations. By working with suppliers that offer environment friendly ingredients, products and services, we aim to reduce the impact SUNDÂRI has on the natural environment.

The holistic philosophy of SUNDÂRI guides us along this path. With an intrinsic belief in the interconnectedness of human thought, action and the environment, becoming a Sundari also means choosing a sustainable, environment friendly approach.

**Sustainability in action**
SUNDÂRI has a stated organizational policy on sustainability. The organization demonstrates its consciousness about the impact it has on the environment through its support of reforestation of Sandalwood in India, support of fair traded ingredients, initiatives to reuse and recycle materials and also support suppliers who follow sustainable business practices.

SUNDÂRI is a licensed user of the Green Dot logo on its packaging demonstrating the organization's commitment to recycling. Cartons used by SUNDÂRI are printed at a facility that used 100% wind energy and is an EPA Green Power Partner. Through these and other initiatives, SUNDÂRI aims to reduce any adverse impact its products and operations have on the environment.

Please talk to us about ways in which we can support you in your sustainability efforts

**Community**
SUNDÂRI is a continuing supporter of CancerandCareers.org.

During the month of October, SUNDÂRI partners with Cosmetic Executive Women Foundation’s Cancer and Careers Program to donate a portion of proceeds of select products in honor of Breast Cancer Awareness Month.
