WILL TECHNOLOGY KILL ANONYMITY?

For Ottawa’s IAN KERR, that’s the $4-million question. The tech law star heads an international project studying how networks, databases and the Internet are destroying privacy. PAGE F3
IAN KERR’S MISSION: 
Prove the legal, ethical and political implications as anonymity erodes in a networked world

BY KATE HEARTFIELD

As anonymity erodes in a networked world, the blurring of that line.

Currently a visiting scholar in Barcelona, Ian Kerr is getting $1 million a year for four years to head a team looking into the legal, ethical, and political aspects of the decline in anonymity brought on by technology. Kerr’s attention was in law school, when he described the right words. Kerr’s attention while he was in law school, when he described the right words. Kerr’s attention while he was in law school, when he described the right words.

Ian Kerr, the University of Ottawa's recently hired expert in the emerging field of technology law, was also rising internationally. He sends his e-mails these days from Barcelona, where he is a distinguished visiting scholar at the Universitat Pompeu Fabra, enrolled from 1989-1997, and currently teaches law. He recently returned from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head to Puerto Rico to journ from Spain to the Caribbean early next year, slated to head.
We're seeing a shift now, from a world where anonymity was the default, to one where authentication is the default.

The Partnership Conference Series • Horizon Event

The Partnership Conference Series, Horizon Event: The Future of Federalism: Maintaining a Competitive Advantage in the 21st Century. How do governments respond to the challenges of globalization and technological change? How does government competency compare to that of non-governmental organizations? How can governments continue to be an important and integral part of the Canadian fabric?

During his time Kerr offered to meet Mann in a coffee shop in the United States; and Steve Mann, the University of Toronto professor, Rogers Chair in Electronic Paper, and director of the Advanced Media Processing Lab, has really high expectations of us.
